Audified U78 Saturator

2.1.0

- Brand new graphic user interface.
- New licencing system.
- Windows VST3 32bit plug-in format no longer included.

2.0.0

- macOS 12 and newest DAWs compatibility improved. 32bit builds are no longer included for macOS platform so older 32bit DAWs are not supported. macOS VST3 and AU plugins are now delivered as universal binaries for both Intel64 and arm64 platform – plugins are Apple Silicon native.
- VST2 plugin format no longer included.
- Installers of version 2.0.0 always uninstall any older version, including VST2.
- Updated graphic user interface.
- Special offers from Audified website integrated to plugin GUI.

1.0.1

- mac OS platform only specific update.
- macOS 12 and newest DAWs compatibility improved. 32bit builds are no longer included for macOS platform so older 32bit DAWs are now not supported.
- Minimal required macOS version changed to 10.11 (El Capitan).
- Compatibility with host presets and stored plugin state made with version 1.0.0 is not guaranteed.

1.0.0

- First release.
