# inValve readme

## System Requirements

- Windows: Windows 7 or newer; CPU with SSE2 support (Intel Pentium 4 or AMD Athlon 64 and newer);
- Mac: Intel Core, Mac OS X 10.6.8 and higher,
- CPU speed 1.6 GHz, recommended 2 GHz,
- 80 MB of HDD space,
- Screen resolution at least 1024x768, recommended 1440x900 and higher,
- ASIO (Win) or CoreAudio (Mac) compatible audio interface,
- VST/AAX/AU host application.

## Uninstallation/Clean Installation in Mac OS X

Use the provided uninstaller – available from the installation disk image (DMG).

## Demo limitations

- Saving of user presets is disabled,
- Audio output is interrupted by dropouts in regular intevals.

## Update/Upgrade

- Select **Check For Updates** from the **Info** menu.
- If an update/upgrade is available, you will be redirected to the download section of our web site.
- Download the newest installer from the page you have been redirected to.
- Run the installer.

## How To Backup Your Data

To backup your presets, save the specified files to a safe place.

**Mac:**

- [home]/Music/Audiffex/Presets/inValve Preamp/
- [home]/Music/Audiffex/Presets/inValve Compressor/
- [home]/Music/Audiffex/Presets/inValve Equaliser/

**Windows:**

- Depending on your user settings made during the installation you will find the preset files in your private or shared documents folder.

  [Documents]\Audiffex\PlugIn Presets\inValve Preamp\

  [Documents]\Audiffex\PlugIn Presets\inValve Compressor\

  [Documents]\Audiffex\PlugIn Presets\inValve Equaliser\

## Support And Troubleshooting

- If you are not able to find the answer to your question, contact our support team.
